EDUCATION

Michigan State University

Bachelor of Science in Computer Science

East Lansing, MI

Expected May 2028

- **Relevant Coursework:** Software Engineering I, Information Management & the Cloud, Discrete Structures, Computer Organization & Architecture, Computer Systems, Algorithms & Data Structures, Matrix Algebra

EXPERIENCE

Emergtech Business Solutions Inc.

Software Engineering Intern

June 2026 – Sept. 2026

Farmington Hills, MI

- Implemented 12 organization-scoped **REST APIs** and **MongoDB** data models for a multi-tenant SaaS platform, enabling secure collaboration across tenant-isolated workspaces.
- Built AI orchestration services with **AWS Bedrock** to convert user discussions into structured action items, caching inference results and tracking token usage to reduce redundant LLM requests.
- Developed 15+ integrations across **OAuth**, **Jira REST APIs**, and **webhooks** to automate authentication, task synchronization, and cross-service events.

Morsby, Gorman, McCarthy LLC – Project Guardian

Engineering Research and Systems Analyst Intern

July 2026 – Present

Remote

- Built **Tableau dashboards and data workflows** analyzing Kenyan digital connectivity, transforming multi-source infrastructure and survey data into traceable metrics and decision-oriented visualizations.
- Engineered analytics across **10 Kenyan counties** with source validation, calculation checks, missing-value handling, accessibility QA, and reproducible transformation logs; earned **94/100** on a technical assessment.

Trustworthy and Reliable Technology (TART) Lab

Undergraduate Researcher

Aug. 2025 – Mar. 2026

East Lansing, MI

- Optimized **C and Rust** programs by profiling CPU, memory, and cache behavior, reducing execution time by approximately **18%** across systems-performance benchmarks.
- Designed energy-use experiments on refactored computing models, reducing redundant operations and evaluating performance-energy tradeoffs.

Digeon Technologies LLC

Software Engineering Intern

June 2025 – Dec. 2025

Canton, MI

- Engineered an AI marketplace using **Flask**, **React**, **SQLAlchemy**, and **MySQL**, implementing a 5-service microservices architecture supporting authentication, payments, search, and 200+ AI agents.
- Containerized services with **Docker Compose** and deployed infrastructure on **AWS EC2/RDS**, integrating Stripe, centralized logging, and monitoring.

PROJECTS

The Pickle Nest | *Next.js, TypeScript, PostgreSQL, Prisma, REST APIs*

- Architected a full-stack platform with **49 REST API endpoints** and a **22-model relational database** supporting venue discovery, bookings, messaging, and authenticated community workflows.
- Engineered a geospatial pipeline using **Google Places API**, **PostgreSQL**, and **browser geolocation**, supporting all 50 states and processing up to **3,000 venue candidates** per seeding cycle.

Solana Intelligence Engine | *Python, FastAPI, PostgreSQL, Redis, WebSockets, Docker*

- Architected a real-time backend with **FastAPI**, **PostgreSQL**, **SQLAlchemy**, and **WebSockets** to ingest, normalize, and stream blockchain events.
- Built asynchronous pipelines generating **15+ predictive signals** across five rolling time windows, with a containerized backend validated by **100+ automated tests**.

Success Society | *Next.js, TypeScript, Supabase, Stripe, AI*

- Developed a full-stack entrepreneur platform supporting **160+ members** with authentication, subscription billing, event management, and role-based dashboards.
- Engineered event-driven **Stripe**, **Supabase**, and **Discord API** workflows and an AI pipeline for automated business discovery, qualification, and outreach.

TECHNICAL SKILLS

Languages: Python, C/C++, Java, Rust, TypeScript, JavaScript, SQL, HTML/CSS

Backend & Data: FastAPI, Flask, Node.js, Express.js, PostgreSQL, MySQL, MongoDB, Redis, Prisma, SQLAlchemy, REST APIs, WebSockets

Cloud & Tools: AWS, Bedrock, EC2, RDS, Docker, Git, Linux/Unix, Tableau, Supabase

Technologies: Next.js, React.js, OAuth, Stripe, Pandas, Microservices, Distributed Systems, Database Design, System Design, AI/LLMs

Awards & Certifications: Eagle Scout, MSU Cybersecurity Bootcamp
